The status of all animals sold is subsequently audited by the OCB. If animals have been sold as 'organic' which are ineligible to be labelled as 'organic' or ineligible for the organic meat market, the suppliers will be subject to the Penalties Procedures outlined in the Standards. Similarly, if the withdrawal periods following use of veterinary inputs have not been observed and residues are found in the meat supplied, serious penalties could ensue. Such issues could ultimately result in the removal of the symbol from all animals on the supplying farm/s and could also be subject to the imposition of further penalties which could include, but are not limited to, serious financial penalties for providing false/erroneous information.
